FIREMAN WENZELL'S CASE.

His Friends Consider Their Efforts in His Behalf Fruitless.

The friends of ex-Fireman Wenzell, who The friends of ex-Fireman Wenzell, whose case has been prominently before the public for several months, have about come to the conclusion that he is not to receive a position under the District, although they chain that as long ago as November 12 they were informed that he would be given a place under Commissioner Powell. This was accepted as entirely satisfactory, and as a complete vindication, without in anywise appearing to be a victory over Wenzell's out chief.

Later, a card was received from Intendent Later, a card was received from intendent Stoatenbarg, informing Wenzell, that at the instance of Commissioner Ross, he could offer him employment; Mr. Stouten-barg afterward staing that it was not as-an act of vindication, but as an act of

The Boston water works have cost the people of that city about \$25,000,000, and are regarded as a model worthy of imitation. Admission to the lecture will be free, and all citizens desiring informaion on the topic of the evening will be welcome at the ball.

GOOD TO WOODWARD.

Justice Cox Released the Young Man on Personal Bond.

Clement Woodward was yesterday re-leased by Justice Cox, upon his personal recognizance during good behavior. He was one of three indicted for the highway robbery, or larceny from the person, in the Capitol grounds, for which his com-

maintenance of the constraint of the constraints are how serving sentence.

Woodward's attorney, Mr. Thomas C. Taylor, made a vigorous fight for him and at the conclusion of the trial there was but little evidence against the accused. was but little evidence against the accused, except that he was seen in company with the others, and that all had been drinking. When the case was called, Mr. Taylor, in the prisoner's behalf, asked for a new trial, which the court expressed a willingness to grant, but Mr. Taylor afterwards said that with the assent of the District Attorney, he would consent to a suspension of sentence instead, as he thought it would be a warning to the young man.

sisters and daughters of the unlimited millions. They neither seek nor desire to parade their names and affairs before the public. Their common sense forbids it and their nodesty shrinks from it. It is this very fact that renders the appearance in print of the army of plann people, a matter of the utinost importance. When the mother who personally rears her children; the housewife who bersonaily performs her domestic duties; the working girl who supports herself—when such women take up the pen in layor of a tinug it means something to womankind in particular and mankind in general. It may not mean much when a few such women go before the public in this manner, for there are exceptions to every rule and there are, of course, exceptional women. But when a whole army of such women, from here, there army of such women, from here, ther and yonder-from everywhere-an army OVER NINETY THOUSAND!

ask to be heard, it is well worth while to pause and ponder.

To be exact, to give the record just as it stands, Ninety-one thousand seven hundred and thirty-four women have, of their own free will, written letters of grafitude to Dr. R. V. Pierce, Author of the People's Common Sense Medical Adviser and Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, of Buffalo N. V., thanking him for the curve effected on themselves by his tute, of Buffalo N. Y., thanking him for the cures effected on themselves by his "Favorite Prescription" and "Golden Medical Discovery." They have done more—these women who from conditions of suffering, despondency, and female weak-ness have been raised to happiness and the full enjoyments of life. They have asked that for the benefit of their ailing sisters their experiences be published throughout the land. Every one of these women had vainly tried other remedies and other phy-sicians and a very large number of them vainty tried other remedies and other physicians and a very large number of them had considered themselves incurable and been flatly pronounced incurable before they commenced the use of the commonsense discoveries and followed the common-sense advice such as Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, will send to any suffering woman who will write him. SUIT FOR HEAVY DAMAGES.

George F. King Wairis \$20,000 of the W. & G. Ratiway Company.

George F. King, through his next friend, James O. Adams, has instituted a suit for damages against the Washington and Georgetown Railroad Company, placing the claim at \$29,000.

The foundation of the claim, as stated in the papers, is that King was run over by a cable car white crossing Seventh street, near Florida avenue, on a bicycle. The car is alleged to have been suddenly started forward, when the claimant was on the track, without giving him time to get out of the way.

He claims to have been seriously injured, and in a subsequent illness, resulting from the harts, blood poisoning was produced, and claimant was obliged to expend \$2,000 in physician's feet and in other necessary expenses.

CLERKS IN THE MILITIA.

Regular Leave Not Affected by Their Military Duty.

Military Duty.

Solicitor Reeve of the Treasury has rendered an opinion of importance to clerks in the executive denartments here who are also members of the Bistrict of Columbia Militia.

He holds that such clerks are entitled to the regular leave allowed by his and that the time they may be absent on military duty shall not be deducted from their regular leave of thirty days.

As this decision affects many circks in the executive departments here and might by inference be construed to apply to government employes similarly situated in every part of the country, it is probable the question will be submitted on appeal to Attorney General Harmon or inferentially referred to Comptroller Bowler before finally adopted by the government.

V. Pierce to have his discoveries legally protected and made known to mankind by means of the public known to mankind by means of the public press. Any objection to such perfecily lawful, business-like and professional methods are due, not to honest difference of opinion, but to narrow-minded prejudice and petty jealousy. This is the conviction of Dr. Plerce, and this is the conviction of all fair-minded, disinterested people.
